

A photograph of a two-story stone house at night, illuminated by warm landscape lighting. The house features a gabled roof with a chimney, stone walls, and arched windows. The front yard is landscaped with a concrete walkway, large rocks, and low-lying shrubs, all of which are highlighted by the lighting. The sky is a deep twilight blue.

LETTER FROM THE OWNER

Dear Home Owner,

Thank you for having Landscape Lighting Solutions in mind for your outdoor lighting project. While choosing the right lighting system can be daunting, we are here to guide and assist you in every step of the way.

Whether you are looking to install landscape lighting for the first time in your property, or you simply want to upgrade your existing system, you'll make the right choice with Landscape Lighting Solutions. Our team of professionals will take the time to learn your needs and wants. We will also show you different lighting ideas and options. You can rest assured knowing we guarantee the quality of our work.

Although some people think landscape lighting is as easy as connecting some lamps, it is far from it. Our quickness and quality stems from over 20+ years of experience in the industry.

If done properly, landscape lighting is an investment that keeps on giving year after year. It does more than simply illuminate your property at night, it makes your property go from ordinary to extraordinary.

If done poorly, landscape lighting can be a nightmare. Servicing and maintaining your outdoor lights will be an even bigger headache to deal with. The wasted initial investment is only the beginning.

I hope that this guide will provide you with all the answers and tools you need to make an informed decision when the time comes to hire a company for all your outdoor lighting needs.

Sincerely,
Juan D.

ABOUT US

Southern California's Premier Lighting Company

For the past 20 years, Landscape Lighting Solutions has been the leading low voltage outdoor lighting installer in Orange County and Los Angeles County. Installing unrivaled residential and commercial outdoor lighting systems, we specialize in designing draw-dropping outdoor lighting systems that increase your property's ambiance, safety, and visibility after dusk.

Whether you're looking for simple path-lighting or looking to stand out from the neighborhood, we are the right company for you. Our team gets to know each client and learn what their lighting needs are and our customer's desires. We carefully survey the landscaping and your property's features. This allows us to create bespoke and custom lighting plans that are unmatched in the industry. Our goal is to create a welcoming ambient, maximize outdoor space, and showcase the beauty of your property after dusk. We carefully check each detail to make sure everything is perfect and to make sure you are 100% satisfied with our services after installation.

We are proud to extend our services to landscape and general contractors for hotels, resorts, rental properties, retail stores, event spaces, and other commercial businesses. We will communicate with you every step of the way to make sure your dreams become a reality.

Outdoor Lighting Solution's unique approach allows us to create and install bespoke outdoor lighting that wows you every time. We carefully inspect your home and custom design your lighting to combine beauty, functionality, and safety.

QUALITY

Not all landscape lighting systems are built the same and not all landscape lighting companies are the same. Our team will get to know you and learn what your lighting needs are. We carefully survey the landscape and your property's features. This allows us to create bespoke and custom lighting systems that are unmatched in the industry. We carefully check each detail to make sure everything is perfect and to make sure you are 100% satisfied with our services after years after the installation.

We are proud to offer solid brass and solid copper lighting fixtures and stainless steel transformers. Our lighting fixtures have no paint nor powder coating to peel off or corrode. Unlike plastic or aluminum fixtures, they maintain their beauty and quality construction for many years to come. All of our fixtures come with a lifetime manufacturer warranty against defects.

Our stainless steel transformers are designed to withstand even the harshest weather. The transformers also come with a lifetime warranty. With proper maintenance and service, your entire lighting system will last a lifetime.

Only we have the skill, experience, and artistry required to produce an exceptional custom lighting system. We use the highest grade wiring and connections. We bury all wires underground without disturbing your existing landscape. These buried wires are protected from the sun, weather and all power equipment. This also prevents children and adult from tripping on them.

We stride on customers knowing exactly what their house will look like before they actually make a purchase. We offer a free nighttime demonstration at your property. You may chose through various different lighting options and fixtures. This is absolutely free and there is no obligation to purchase.

RESIDENTIAL LIGHTING

We are pleased to offer all of our professional lighting services to the general public

Whether you're looking for simple path-lighting or looking to stand out from the neighborhood, we are the right landscape lighting company for you. Our team will get to know you and learn what your lighting needs are. Our expert lighting professionals will guide you through every step of the way. We will be with you from consultation to installation to maintenance.

We also offer a free nighttime demonstration at your property. You will see exactly how your property will look like with our outdoor lighting system. This ensures you know exactly what you getting before you make a purchase. This is absolutely free and there is no obligation to purchase.

COMMERCIAL LIGHTING

Unparalleled & Industry Leading Service

As Southern California's premier outdoor lighting company, we are proud to offer our services to hotels, resorts, rental properties, retail stores, event spaces, and other commercial businesses. Our team of professionals will get to know your needs and desires, and then provide a custom lighting plan for your property.

Our lighting systems will provide a warm and welcoming ambiance to your guests. Showcase your commercial location's beauty and features after dusk.

No matter how you compare us, we are the go-to company for commercial properties. We are above the competition in every shape, way, and form.

SMART LIGHTING

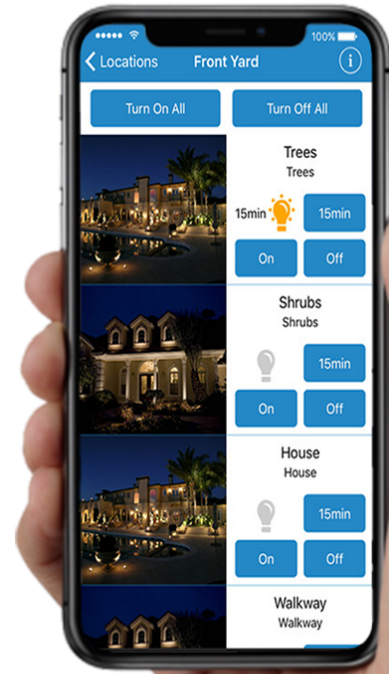

The Unmatched Smart System

Our smart lighting system is the most advanced in the market. All you need is an iOS or Android device, and you have full control of your landscape lights at your fingertips.

The user-friendly app lets you change the lighting schedule, lets you turn the lights on and off, and lets you change your lighting preferences.

Compatible with Alexa and Google Assistant, you don't even need to take your phone out of your pocket.

The cloud-based system allows you to control your lights from anywhere in the world.

MAINTENANCE & SERVICE

Services, Repairs, & Upgrades

We offer comprehensive maintenance & service for all landscape lighting systems, even those we didn't install.

This ensures your outdoor lighting system is performing like the day it was installed and - above all - extends the life of your system.

If your lights aren't working properly, we also offer system repairs. This can be as simple as replacing the light bulb, or more complex like replacing the lighting wire, light fixture, or even the transformer. There is no job too small or too big for us.

We offer the very best in upgrades. Upgrading your outdoor lighting system does not necessarily mean you have to replace every single existing lighting fixture. Instead, we can work with your lighting system and simply build upon it. This can range from upgrading to LED light bulbs to adding new light fixtures. We can also remove light fixtures that are no longer used.

Our professional experience means that our team is familiar with all lighting systems.
